

## March Newsletter

It's hard to believe how quickly February has come and gone! March is quickly coming and we are looking for some warmer weather! Please make sure you send your child in proper gear for them to play and explore in when outside. All children should have a change of clothes in their lockers here at the centre. Please make sure that the change of clothes and their inside shoes are the only items left in your child's locker. All staff, children and parents need to remove their shoes if they are not on the black mats. We have small children that crawl on our floors, and it is important to keep them as clean as possible.

**Tax Receipts-** We have been advised by our accountant to hold off on issuing tax receipts until we get the second installment of parent fee reduction grant from the government. This way your tax receipt is based on exact amounts not an estimate.

### **Annual General Meeting- March 29 @7:00pm**

-The AGM will be held virtually again this year! Please mark this date in your schedule, as we need a certain percentage of parents to attend in order to meet quorum.

-We have four openings on our board, if you are interested in joining the board, please let Tammy know or contact the board through their email: [wccboard@outlook.com](mailto:wccboard@outlook.com)

- Please make sure that the board's email is saved as a safe sender in your contacts, so you do not miss any communication from them.

### **COVID update- effective February 28, 2022:**

#### **Masking:**

- **Children:** it is parent's choice if they want their child to wear a mask at WCC. Parents, please let us know if you want your child to continue to mask.
- **Parents/Staff/ Visitors:** we are asking that you continue to mask inside the centre for the month of March.

#### **Vaccine Mandate:**

- Parents/ Children/ visitors: We will not be checking for vaccine status
- Staff: all staff must be vaccinated against COVID to work at WCC.

#### **Sick Policy**

- Children must stay home until they are 48 hours symptom free (no medication)
- Please report illnesses to the centre as per the licensee manual

#### **Rapid Testing**

- Staff will continue to self test weekly

Thank you to all the parents and staff for their flexibility, with this pandemic, we understand it has not been easy. We appreciate the support for the past two years!

Have a great month

Tammy
